

AWS Skill Builder Free Subscription

AWS Academy

AWS Academy: Skill Builder Program Overview

AWS Academy helps close the cloud skills gap

AWS Academy provides accredited, education institutions with a free, ready-to-teach cloud computing curriculum that prepares students to pursue industry-recognized certifications and careers in the cloud. The addition of a free AWS Skill Builder subscription enhances the AWS Academy program by providing the following:

**Free 1-year
subscription for
students and
educators**

**Access to the full
AWS Skill Builder
catalog**

**Students and
educators can earn
free certification
vouchers**

What is AWS Skill Builder?

AWS Skill Builder is a digital platform providing over 600+ digital courses including exam prep resources, game-based learning, labs, challenges, and more.

Develop AWS skills with interactive and hands-on learning environments

Translate business problems into technical solutions by enrolling in an [AWS SimuLearn](#) training that pairs gen AI-powered simulations with hands-on building.

Build role and industry expertise while having fun with [AWS Cloud Quest](#) and [Industry Quest](#).

Explore the building blocks of AWS Cloud architecture through virtual card games, [AWS Card Clash](#).

Strengthen your team's AWS knowledge and foster collaboration by hosting and participating in trivia sessions through [AWS Skill Builder Trivia](#).

Learn hands-on in the AWS Console

Unlock hundreds of self-paced labs to develop and apply practical skills. Receive guided instructions for common cloud scenarios in a live AWS environment, and practice building without risk of unanticipated expenses. Available with the AI-powered, trainer-inspired AWS Learning Assistant to help you answer queries, explain code, and discuss product implications—all within your lab's context.

AWS Academy: Educator Overview

AWS Academy Educator Overview

- An AWS Academy educator is eligible for a free 1-year AWS Skill Builder subscription, based on the activation start date.
- Each educator is eligible for four AWS certification vouchers based on the course passed.
- Important notes for educators:
 - To take advantage of this offer, you must be logged in as yourself and not a student.
 - Your email must have been verified in Canvas.

AWS Skill Builder Process for Educators

The following is the process for an educator to follow to activate their free 1-year subscription to AWS Skill Builder:

Step 1:

Login to Canvas and select the “Educator Getting Started with AWS Academy” course.

AWS Skill Builder Process for Educators

Step 2:

Select the Modules menu item.

The screenshot shows the 'Educator Getting Started with AWS Academy' course page. On the left, a vertical navigation menu lists several items: Home (selected), Modules (highlighted with a yellow arrow), SCORM, Quizzes, Announcements, Discussions, Assignments, Grades (with a red circle containing the number 1), Pages, Files, and Syllabus. To the right of the menu, the course title 'Educator Getting Started with AWS Academy' is displayed above the AWS Academy logo. Below the logo, a welcome message reads: 'Welcome to AWS Academy! This course is designed to prepare you to start teaching with AWS Academy. The course covers the AWS Academy program, AWS Academy curriculum components, the platforms you will interact with, and the requirements for working with AWS Academy. This course also helps you to understand the requirements and process for working with AWS Academy.' Further down, instructions say: 'To get started, choose **Modules** and go through each module.' and 'To gain access to the AWS Academy curriculum, you must score 80 percent or higher on the final exam.'

AWS Skill Builder Process for Educators

Step 3:

Scroll down to the last module named “AWS T&C Resources”. Review the FAQs and select the link called “Activate Your AWS Skill Builder Offer”.

As part of our commitment to your continued growth, we're offering you complimentary access to AWS Skill Builder for a full year. This includes curated learning plans emphasizing deeper Generative AI content, access to premium courses, hands-on labs, and resources to accelerate your cloud career.

Question 1	1 pts
I consent to AWS Academy sharing my information with AWS Skill Builder. AWS handles your information in accordance with the AWS Privacy Notice. This includes: <ul style="list-style-type: none">• My first and last name• My email address <p><input type="radio"/> Yes, I consent to sharing my name and email with AWS Skill Builder to receive 12 months of free AWS Skill Builder Premium access.</p> <p><input type="radio"/> No, I decline the AWS Skill Builder offer.</p>	

Submit Quiz

AWS Skill Builder Process for Educators

- After the form is submitted, it can take up to 3 days to activate your account. You will receive an email from AWS Skill Builder with further instructions.
- You will be assigned the same courses the students are assigned. Currently this includes:
 - AWS Cloud Quest: Cloud Practitioner
 - AWS Cloud Quest: Generative AI Practitioner
 - AWS Cloud Quest: Serverless Developer
 - AWS Cloud Quest: Solutions Architect
 - Official Practice Exam: AWS Certified AI Practitioner (AIF-C01)
 - Official Practice Exam: AWS Certified Cloud Practitioner (CLF-C02)
 - Official Practice Exam: AWS Certified Developer – Associate (DVA-C02)
 - Official Practice Exam: AWS Certified Solutions Architect – Associate (SAA-C03)

AWS Certification Vouchers

Currently, AWS Academy is offering 100% discounted vouchers for Academy educators and students.

Vouchers

- Upon completion of the Official Practice Exams, a 100% discounted voucher will be distributed within 3 days:
 - Official Practice Exam: AWS Certified AI Practitioner (AIF-C01)
 - Official Practice Exam: AWS Certified Cloud Practitioner (CLF-C02)
 - Official Practice Exam: AWS Certified Developer – Associate (DVA-C02)
 - Official Practice Exam: AWS Certified Solutions Architect – Associate (SAA-C03)
- Educators and students are eligible for one voucher per practice exam, therefore no more than 4 total.
- An email will be sent out from Pearson Vue when the voucher has been assigned to the learner. The learner can then schedule their exam.

AWS Academy: Student Overview

AWS Academy Student Overview

- An AWS Academy student is eligible for a free 1-year subscription to AWS Skill Builder, based on the activation start date.
- Each student is eligible for four AWS certification vouchers based on the AWS Skill Builder course passed.
- Important notes for students:
 - Your email must have been verified in Canvas.

AWS Skill Builder Process for Students

Step 1:

Login to Canvas and select any of your AWS Academy courses.

The screenshot shows the AWS Academy dashboard. On the left is a sidebar with icons for Account, Courses, Calendar, Inbox, History, and Help. A course card for "AWS Academy Machine Learning ..." with ID "AMLFv1EN-LTI13-125315" is displayed. To the right, a yellow-bordered message box contains the following text:

Complimentary access to AWS Skill Builder for 12 months

As part of our commitment to your continued growth, we're offering you complimentary access to AWS Skill Builder for 12 months, as well as the opportunity to earn AWS Certification vouchers. Our initial launch is for English courses, however, soon it will be available to all learners. Instructions to activate this offer are in the AWS T&C Resources module of your AWS Academy course. If you do not see the module at this time, check back regularly as it will be added soon. After you activate the offer, you will be invited to AWS Skill Builder within 3 business days.

This is a message from AWS Academy

A large yellow arrow points from the "Courses" icon in the sidebar towards the course card on the dashboard.

AWS Skill Builder Process for Students

Step 2:

Select the Modules menu item.

The screenshot shows the AWS Academy interface. At the top, there is a header bar with the AWS logo and the text "AMLFv1EN-LTI13-125315". Below the header is a navigation bar with several items: Account, Dashboard, Courses, Calendar, Inbox, History, and Help. The "Modules" item is highlighted with a yellow arrow pointing to it from the left. To the right of the navigation bar, the text "AWS Academy Machine Learning Foundation" is displayed. Below this text is a large, stylized graphic of a cloud and circuit boards.

AWS Academy Machine Learning Foundation introduces students to the core concepts of machine learning. Students will be able to select and apply machine learning services to resolve real-world problems.

AWS Skill Builder Process for Students

Step 3:

Scroll down to the last module named "AWS T&C Resources". Review the FAQs and select the link called "Activate Your AWS Skill Builder Offer".

The screenshot shows a navigation bar on the left with links: Home, Modules (selected), Discussions, Grades (with a notification count of 1), and Lucid (Whiteboard). The main content area has three sections:

- Feedback**: Contains a link to the "End of Course Feedback Survey".
- Badges and Completion Certificates**: Contains a link to "Claim your badge [Badges EN]".
- AWS T&C Resources**: Contains two links: "FAQ - Free access to AWS Skill Builder" and "Activate Your AWS Skill Builder Offer". A large yellow arrow points from the text above to this section.

How can educators use AWS Skill Builder in their courses?

AWS Academy Skill Builder Application

There are many ways educators can use the AWS Skill Builder digital platform, but the following are suggestions:

- **Reinforce Concepts:** Use AWS Skill Builder as additional content for your AWS Academy Courses to help students understand difficult concepts.
 - ✓ Educators can find key concept courses to reinforce content. For example, recommend the immersive SimuLearn courses to reinforce concepts on networking.
- **Self-Paced learning:** Students will have the full AWS Catalog for experiential learning.
 - ✓ Educators can find labs, jams, and other hands-on activities to recommend to those students looking for extra knowledge or additional skills.
 - ✓ Educators may find they could use AWS Skill Builder to give students extra credit for extra work.

Questions and Thank you!
